- Fast Math
- Reading Eggs
- Math Blaster
Time & Money
- Brainpop Jr.
- Computer Technology Vocabulary
- Parts of the Computer
- Paint Program

Computer Chitchat Tips for Parents

- 1. Take care of young ears:**
Ear buds/Headphones never set volume more than half-way. Pushing ear buds in to far can damage eardrums.
- 2. Take care of Eyes:**
Encourage students to look away every 20 minutes and take a break after one hour.
3. Best practice set limits for video gaming.
4. Young Students need to be supervised when using technology devices and computers with Internet access.
- 5. Remind students not to share private information in our digital world.**
6. Centrally locate Student or Family computer for supervision.
