Computer Chitchat Tips for Parents

1. **Take care of young ears:** Ear buds/Headphones never set volume more than half-way. Pushing ear buds in too far can damage eardrums.
2. **Take care of Eyes:** Encourage students to look away every 20 minutes and take a break after one hour.
3. Best practice set limits for video gaming.
4. Young Students need to be supervised help students select grade appropriate activities.
5. **Remind students not to share private information in our digital world.**

Practice Builds Skills & Confidence!
