Newsletter from Mrs. Nasto, Computers @ mrsnasto.com “Where Learning and Technology Meet!”

Welcome to 4th Grade Computers

Your 4th grade student will have computers with me in the computer lab once a week all year. My goal is to advance & build technology skills and confidence in a nurturing environment that promotes self-esteem.

This year we will explore careers in our world and advance our Microsoft skills using PowerPoint to share the learning experience. In the lab, we are using Windows 7 and PowerPoint 2010.

Edmodo.com:

4th Grade will be using Edmodo.com a teacher student parent communication resource network tool that enables teachers to share, quiz and manage communication and assignments with students. Edmodo provides a private digital environment for education. This is a FREE resource; parents are encouraged to log on to view the student experience. Edmodo is available in an **Android app, ipad & iphone** app look for FREE downloads for your devices. Please email me if you have any questions or concerns.
